ABOUT COVER FX

At Cover FX, we believe that great beauty begins with a great foundation. We create vegan and cruelty-free products to help you MAKE YOUR OWN BEAUTIFUL.

SKIN-FRIENDLY INGREDIENTS

All Cover FX formulas are loaded with powerful skin care ingredients that protect and improve skin over time.

DIVERSE GLOBAL SHADE PALETTE

With over 40 inclusive shades, our unique formulas provide a precise match based on the undertone for skin of all ethnicities.

REVOLUTIONARY PRODUCT INNOVATION

We are committed to creating products as intelligent, dynamic, and versatile as the modern consumer they serve. Our Custom Cover Drops won the *Allure Beauty Breakthrough* award for groundbreaking technology to enable coverage customization.

CUSTOM BLOT DROPS

Liquid. Blotting. Paper!

We created a product that instantly transforms your complexion into a matte, shine-free canvas at any step of your beauty routine. These lightweight, non-drying drops can be mixed with any of your liquid products — serum, moisturizer, primer, or foundation — to zap oil and make your skin look balanced and fresh. **Grease, begone!**

PRO TIPS

- For a matte base, shake well, apply to your fingertips, blend together, and then press onto the skin. (Avoid rubbing on skin.)
- To control excessive oil and create a matte finish, mix the drops into your favorite moisturizer, primer, or serum. The more drops, the more matte!
- Touch up your makeup throughout the day by pressing the product onto the oily areas of your skin.

CLEAR COVER

Clear Cover Invisible SPF 30 Sunscreen is the ultimate overachieving UV protector. This broad-spectrum sunscreen is totally transparent, which means you can avoid the dreaded white cast of zinc-based sunscreens. (*You worked hard for that perfect tan!*) It also moisturizes, brightens, and nourishes. Unlike other sunscreens that are greasy and sticky, this weightless gel creates a smooth, non-greasy finish. It's the perfect base for makeup application!

TIPS FOR HOW TO USE

- Apply to your face every morning after cleansing. Follow with your normal makeup routine.
- Going bare? Apply Clear Cover 15 minutes before sun exposure and reapply every two hours if you're still outdoors.
- For reapplication throughout the day, blend a small amount between both your palms and gently press onto your face over your makeup.
